B.E.G. LUXOMAT®
IR-RC-Adapter and Remote Control-App

With the IR-RC adapter, all remote-controllable **B.E.G.** detectors, lights and photoelectric switches can be set. The adapter is simply plugged into the phone connector of the Smartphone. A user-friendly navigation allows you to search by product name, by remote control name or by part number. The **B.E.G.** IR-RC-Adapter is plugged into the headphone socket of the Smartphone and establishes the infrared connection to the detector, light or photoelectric switch.

Description	Part number
IR-RC-Adapter	92726

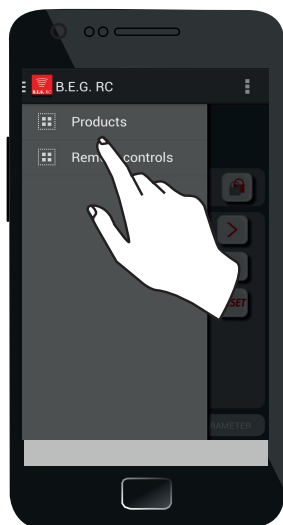

Step 1: Install the remote control app „B.E.G. RC” on the Smartphone (Android min. V4.0.4, iOS min. V7.1.2).

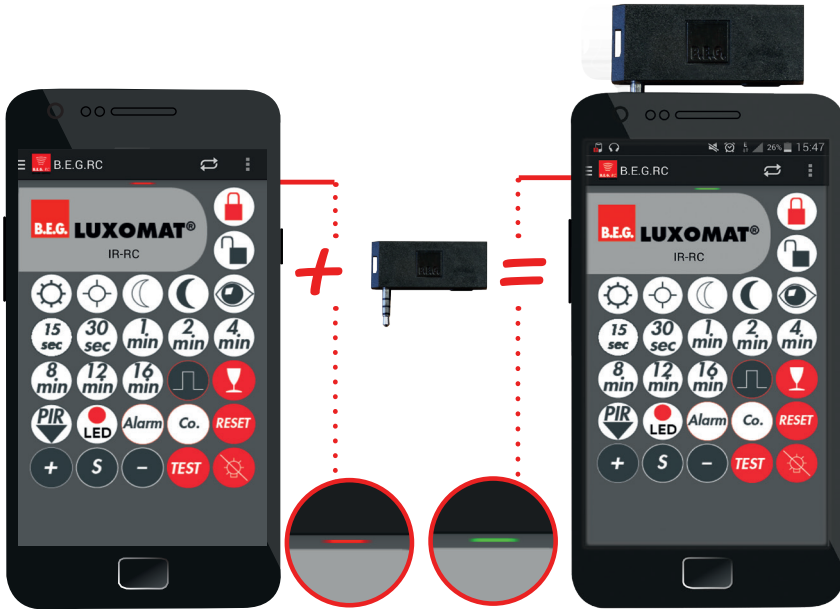

Step 2: Charge the adapter via Micro USB cable. The battery being charged, the red LED turns off.

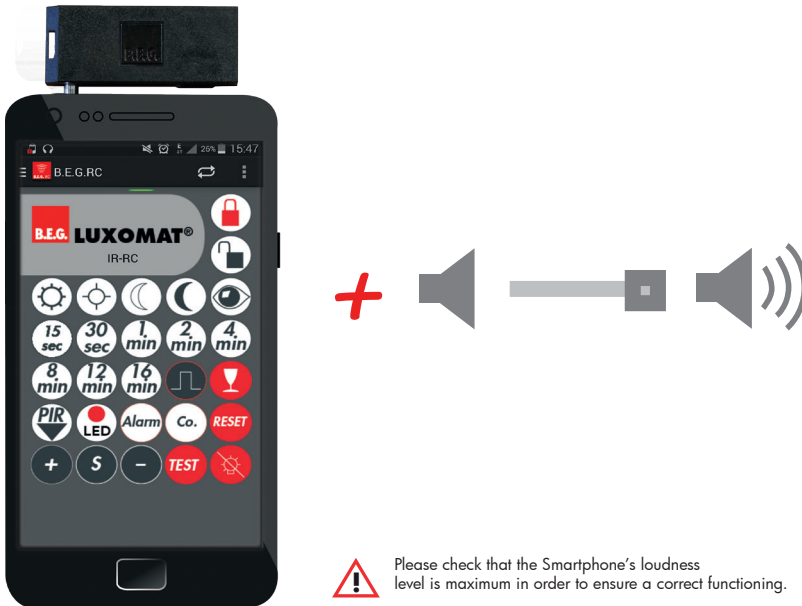

The IR-RC-Adapter has to be charged on a regular basis.

Step 3: Select remote control on the Smartphone via product, remote control or part number search.

Step 4: Plug in IR-RC-Adapter (phone connector). Warning: Sometimes protection covers prevent the adapter from being plugged in completely. Please ensure that the IR adapter is plugged in correctly.

Please check that the Smartphone's loudness level is maximum in order to ensure a correct functioning.
